### **BULLS CONTINUE IN** CONTROL OF ALL GRAINS.

SUCCEEDED IN ADVANCING PRICES LARGELY.

Coarse Grains Were Strongest and Made the Biggest Gains, but Wheat Was Well Up.

The bulls were again successful in the grain markets yesterday, and had no trouble in closing everything on the list largely higher, the high-priced cereal showing a gain for the day of \$\frac{1}{2}\$e to \$\frac{1}{2}\$e, while corn and cats were up 1\frac{1}{2}\frac{1}{2}\$e to \$\frac{1}{2}\$e, and \$\frac{1}{2}\$e to \$\frac{1}{2}\$e, respectively. Everything and everybody was bullish, and there was but one side to the situation from the time the different markets opened up for business in the morning until they closed after meridian. There were fewer recessions during the day than usual, and they were almost all to be ascribed to selling on profit-taking by longs, who could not resist the temptations offered them by the high prices ruling most of the day. The trading in the pit was on a very large scale, commission men and brokers having large buying orders from the country, and also from local speculators, showing that the bull feeling is spreading.

Another good record on the bull side was made by the wheat markets of this country yesterday. The bulls put up a strong game, and, although they did not succeed in getting into first place, the corn market holding that position, they were a good second, the market here closing sharply higher and right up around the top figures of the day. The first incentive to a bull market, or rather a higher level of values, as the situation has been bullish all the week, came from the other side, traders being greatly from the other side, traders being greatly encouraged right at the outset by a cable from Liverpool, reporting an advance there of 4d, and this backed up by strong and higher markets elsewhere, and an advance in corn started buying at such a rate that the first dash out of the box Sept. sold 4c higher at 6c. There was a sudden withdrawal of buying orders, when receipts of 312.00 bu, here and \$70.000 bu, at Chicago were posted, and a letdown to \$65.50 \( \frac{1}{2} \) c sellers followed. Nothing was done in Dec., but \$8\frac{1}{2} \) c was bid. Another advance in corn had a stimulating effect upon wheat, overcoming the influence of large receipts and unfavorable late cables, which stated that Liverpool's close was only \( \frac{1}{2} \) d up for the day. London up \( \frac{1}{2} \) d and Paris \( \frac{1}{2} \) c better, but Antwerp was off \( \frac{1}{2} \) c. Berlin 1\( \frac{1}{2} \) c and Budapesth \( \frac{1}{2} \). The export clearances for the day were light in flour and wheat at 322.00 bu. Shortly before noon Sept. once again sold at \$6c, July brought \$61\( \frac{1}{2} \) c and Dec. Late in the day advices were received of large export buying in the East, and it was stated that 80 loads had been taken. Clearances for the week were said to be over 5.20,000 bu., and these, with the closing bulge in corn, sent Sept. to 65½c and closed that option at 65%c. Dec. selling at 63%c, with that bid for more, while July was nominally worth 56c.

Corn started off very bullishly yesterday morning and held up remarkably well throughout the entire day. The rainmakers were not in evidence, nor was the condition so unsettled, the result of which was that there was a rush to buy right at the opening, and the initial sale in Sept. was at %c advance, at \$5c, which was quickly followed by a bid of \$3\cdot c. A very bullish report from Snow, a good advance at Liverpool and the fact that all domestic markets were higher and bullish had a \$600 effect, but the advance was not maintained. Bept. falling back to \$5\cdot c on free selling. Bec. sold at \$3c. Late advices were of a character to increase the bull feeling, and Ecansed buying to such an extent that Sept. before the hour of noon, sold as high as \$6\cdot c, and Dec. at \$5\cdot c. Crop-killing conditions were again reported in the drought-stricken districts. Some extremely bad news came from Iowa and Nebraska, which states heretofore have escaped the drought's severity, and the situation was stated to be very bad, and good rains were absolutely necessary to save the crop. Then egain, late cables reported advances of \( \frac{1}{2} \) din London, the latter for Dec., but the clearances were light at \$2\cdot c. The best price for Sept. was reached late, when \$6\frac{1}{2} \) c was paid, but there was a slight easing off from this high point, and the market closed at \$5\cdot c. \$2\cdot c. The close for Dec. was at \$6\cdot c. was paid, but there was a slight easing off from this high point, and the market closed at \$5\cdot c. \$2\cdot c. was paid, but there was a slight easing off from this high point, and the market closed at \$5\cdot c. \$2\cdot c. was paid, but there was a slight easing off from this high point, and the market closed at \$5\cdot c. \$2\cdot c. was paid, but there was a slight easing off from this high point. and the market closed at \$5\cdot c. \$2\cdot c. was paid.

ort on the crop and the fact that all other all markets were on the boom was all at was needed to open the local cat markets good and strong, Sept. selling &c higher, 24%c, but the trading was light, as spectative interest was centered in other ains. On this account Sept. eased off to the sellers, and May was offered at 28c on caker markets at other points. The adance reported in corn gave the market core strength, and Sept. sold at 34%c and any at 25%c. The July option was badly anted by shorts, and early sales were at 26%c and later 36%c was bid. The demand ept up well during the balance of the seson, and the closing sale in Sept. was to 36, though 356%c at one time was bid. lay sold late at 28%c and July closed at 36%c bid.

ows actonishing rates of yield. Average arms received to date show above 20 but home. Z in Kansas and 25.5 in Nebraska, yields are maintained winter wheat estimile be materially enlarged. Spring wheat is a little less promising, but no serious apparent, except in limited portions of Dakota. Oats proving a further disapment in nearly all sections. Yield small and poor."

send General Holloway of St. Petersburg says to are good reasons to believe the wheat hart of 1301 will exceed that of 1300. Spring sit was more promising than winter, which suffered heavily from some cause, but the in winter wheat would be balanced by said of spring wheat sown. Consular reports he india crop are for a yield of 231,390,000 to 100,000 bu., istirer \$2.15.000 bu. larger than year. Consul General Patterson says Indian at exports may reach 18,00,000 to 15,000,000 bu. The Argentine shipped this week 704,000 bu. at and 1.544,000 bu. corn, where last week were 63,000 bu. wheat and 1.512,000 bu. corn a year ago 1.735,000 bu. wheat and 1.512,000 bu. corn a year ago 1.735,000 bu., compared with 57,075.-u. for same period last year.

1. confidential incessage from Joe Bracken of the conditions so awful dry that the lightning bugs were ag fire to the lawns in that city. Genesat wired back, "No lawns left in St. Louis, systemelon patches being destroyed."

Prunes \$250 and \$1660c. Prime \$250 and \$1660c. Prime \$250 and \$1600c. Prime \$1600 and \$16

IN CHICAGO MARKET.

PRICES ADVANCED OVER

Good Trading in Wheat, With Higher Quotations-Oats Bullish and Excited.

Chicago, Ill., July 19 .- There was a good trade in wheat, with prices higher.
Corn was much stronger; trade active. Prices were 14c to 14c higher at the close.

Oats were higher and trade excited, Provisions were stronger and slightly higher, in sympathy with advance in grains.

With practically no relief, present or prospective, from the drought and heat, all grain markets started strong and higher. Wheat in the Northwest being still in a stage of its growth which renders it susceptible to unfavorable weather, and the Weather Bureau remarking in its prediction for the next thirty-six hours that the temperature had risen quite rapidly in the Northwest, gave rise to apprehension of blight to ripening wheat, extending north

Chicago received 203 cars, Minneapolis and Duluth got 255 cars, compared with 225 a year ago. Argentine shipments for the week were 704,000 bu., compared with 1,735,000 bu. for the same week last year, and since January 1 this year the total to date is 27,522,000 bu., against 57,178,000 bu., the similar period one year ago. The seaboard clearances of wheat and flour were equal to 322,000 bu. Minneapolis reported a probable decrease in stocks of wheat for the

clearances of wheat and flour were equal to 332,000 bu. Minneapolis reported a probable decrease in stocks of wheat for the week of about 1,000,000.

Snow's weekly report in Orange Judd Farmer said: "Winter wheat, estimated, will be materially enlarged, spring wheat a little less promising, but no serious damage." Estimated receipts for to-morrow are 255 cars. Withdrawals here were 87,900 bu. Final figures showed about 5c gain.

Corn.

Cor

against 537,000 bu. last year. Country acceptances were small. Estimates for to-morrow are 225 cars.

Oats.

Oats were active, excited and higher today, selling at the highest prices so far. A
feature of the market was the increased
demand for cash lots from the Southwest,
50,000 bu. being sold to that section, including 10,000 bu. to New Mexico. Total cash
sales were 150,000 bu., with rumors of double
that quantity sold. Hot, dry weather and
unfavorable crop prospects and the advance in wheat and corn helped oats advance 2½c for July, which sold from ic under to the same price as the Sept. option.
Sept. advanced 1¾c and May 1¼c, all closing
at about the top. Commission-houses traded heavily, and provision interests which
had been long unloaded. Seaboard clearances were small. Withdrawals were 42100 bu. Receipts were 75 cars, with 110 estimated for to-morrow.

Provisions.

Only a moderate trade was reported in

mated for to-morrow.

Provisions.

Only a moderate trade was reported in provisions. Offerings were fair, and there was no particular demand from any source. At the opening the market was stronger in sympathy with the advance in prices of hogs, and prices ruled slightly higher. After a few orders were provided for an easier feeling was manifested in the near deliveries and prices receded slightly. In the last part of the session the feeling was stronger in sympathy with grain, and the market closed steady around outside figures. Hogs were in fair supply and prices ruled higher.

Receipts at the leading Western packing points were estimated at 67,290, compared with 45,000 a year ago. Foreign markets were firm. Domestic markets rather quiet. Shipping demand fair and offerings not large. Pork demand only moderate and offerings were fair, opening at \$14.27\frac{1}{2}\$ for Sept., sold to \$14.47\frac{1}{2}\$, and closed steady at \$14.30.

Lard trade was only moderate, offerings rot large and inquiry only fair. Sept.

Barley, bu Barley.

There appeared to be a firm tone to the market; it takes its firmness to some extent on the strong position of oats. A little old barley was offered and sold; one car of new was received being somewhat stained and musty from late rains. Posting gave receipts of 5 cars grade barley. Screenings sold about 38c to 41c, and low strade barley 41942c; malting common to

fair 45c to 48c; good 50c; Sept. No. 2 60c nominal; Oct. 56c bid.

nominal; Oct. 56c bld.

Rye.

There was a firm market and both cash and futures were in good demand, with prices 14@14c higher. Local receipts were 10 cars and none was withdrawn from store here. ## LIVE STOCK MARKETS.

Natives Stronger and Higher: Texans Also Better-Hogs Steady to Lower. Stockers and Feeders-Very little fresh stuff was on offer in this department, and it was conwas on offer in this department, and it was considered as a sort of cleaning-up day by every-body. Prices were generally called steady to strong, particularly on the better grades. A consignment, held over from yesterday, for lack of satisfactory bids, was taken at a little advance to-day. The yards show a practical clearance, not only out of first hands, but traders as well are virtually without supplies. Dry-weather offerings depressed prices the first three days of the week to the lowest level of the year, and attracted competition, which has brought about somewhat of a reaction, and inally cared for the supply in an exceedingly commendable manner under the circumstances. Comparisons are somewhat difficult owing to differences in the quality and supplies of a week ago.

Butcher Cattle—There was no particular change in prices on cows and helfers, at ough the movement was active; stendy to strong was the prevailing opinion. The supply was light and inadequate for comparisons with the rusply of last Friday. There was a material difference in views; steady with last week, some said; others thought the market life to 25c higher than the extreme low time the first of the week. Dry weather butcher stuff furnishes no criterion for a "line" on good killing kinds. The buil mar-

ket was strong and veal calves are around 500 per cwt. lower. ower. stative sales: HEIFERS. Dr. No. 3.65 | 34 mixed... 2.75 | 16..... VEAL CALVES

REPUBLIC SPECIAL

Chicago, Ill., July 13.—Cattle—About 5,000 head of cattle were received to-day, which is an unusually large Friday run. Buyers 500k hold actively at stronger to 10e per 100 lbs. higher prices. Since Tuesday prices have been advancing rapidly under the influence of active demand from all classes of buyers, and cattle of good quality are now selling largely 30666 higher than a week ago. Beef steers are now selling at \$3.6094.5; for the poorest light weights \$4.0064.90; for fair grades \$565.30; for medium grades \$5.2395.50; for good cattle \$5.006 6 for choice and \$5.0065.00 for fancy, cows and helfers \$1.5066, largely at \$264.60; bulls \$2.256 4.50; stags \$365; veal cattles \$565.50; milkers and springers \$3.6065; per head; stockers and feeders have advanced \$25650 since Monday; these cattle bring \$264.60; not many going below \$2.50 or above \$4.55; extra cattle \$8.1096.5; choice steers \$5.6065; medium \$565.20; fair beef steers \$4.5064.55.

and springers \$17450 per head; stockers and feeders have advanced 269506 since Monday; these cuttle bring \$284.60, not many going below \$2.50 or above \$4.55; extra cattle \$4.1095.5; fair beet steers \$4.5094.55.

Hogs—With an estimated supply to-day of 16,000 hogs, and the usual strong demand, prices ruled strong and 25,556 higher. Sales were at a range of \$5.0096.15, the greater part selling at \$6.5566; plags \$4.5095.56; slags \$5.2565.5; boars \$4564.50; governments \$253.3; selected butcher hogs \$5.5966.19; common to choice bacon hogs \$5.596 to \$755; mixed lots \$5.555.65; heavy shipping droves \$666.15; packing hogs \$5.5665.9; heavy shipping droves \$666.15; packing hogs \$5.5665.9; each of \$5.575; mixed lots \$5.5555.65; heavy shipping droves \$666.15; packing hogs \$5.5665.9; heavy shipping droves \$666.15; packing hogs \$5.5665.96.

Sheep—About to00 sheep arrived to-day, and they comprised but a limited number of good sheep and absolutely no lambs of high grade. Receipts have been enormous this week and prices have broken badly for lambs. To-day's trade was active as the limited offerings would admit, and prices were steady, with a firmer feeling for lambs. Spring lambs \$263 for inferior up to \$4.5064.99 for better grades; prime flocks \$5665.5; yearlings \$469.50; calls \$1.5062; choice grades \$1.5064.

St. Joseph, Mo., July 19.—Cattle—Receipts \$1.232; market 10c higher; natives \$4.5066.15; cows and heifers \$1.2665.10; bulls and stags \$2.2565. Sheepers and feeders \$2.3564.40; veals \$256.55. sheepers and feeders \$2.3564.40; veals \$256.55. sheepers and feeders \$2.3564.40; veals \$256.55. sheepers \$1.5062.50; narives 1.000; for sheeper lambs 10c. to lace higher; top \$5.500.50; higher; lambs 10c. to lace higher; top \$5.500.50; higher; harded \$5.000.50; higher; harded \$
